# Year-Round Online Subject Tuition

## GCSE, IGCSE, IB & A Level

### KEY FEATURES:

Highly personalised courses offering one-to-one tuition, allowing students to build strong working relationships with their tutors.

Tutorials are student led, enabling the student to focus on the specific areas that they need help with, guided through by their expert tutor.

Flexible booking options, with timetables built around the students' availability.

Regular reports, to track progress and offer advice for further study.

“Sincere thanks to all your team for your support. Regardless of final results, the weekly coaching sessions have hugely helped his confidence and understanding. We feel very fortunate that he has had this opportunity.”

# Online Courses for University Preparation

## Personal Statements

### KEY FEATURES:

Includes help such as deciding what content is relevant and important to mention, proof-reading drafts, and looking at ways to achieve the correct word count. Students may end up with a final version, ready to upload to UCAS.

## Interview Preparation

### KEY FEATURES:

Includes providing students with an understanding of what will be expected of them, via outlines and mock interview practice. This could include being given challenging articles to read or questions to answer and learning how best to go about this.

## Admissions Tests

### KEY FEATURES:

Includes helping students to be best prepared for what the specific test will ask of them, and how to tackle this, via the use of practice questions. This could include going through question by question in detail, to give an understanding of what is required to do well.

£180 per hour, with a minimum booking requirement of 4 hours  
Plus VAT of 20%, total price of £216 per hour

\*Discounts available for block bookings of more than 10 hours
